

LIFT CARS

Innovation Technology Quality

La Cabina was founded in 1988, as a company serving the lift industry.

Thanks to its wide experience and continuous commitment in the development of innovative technical solutions, **La Cabina** is able to offer a wide variety of high quality cars.

The special attention to the choice of materials and details results into the offer of a complete range of cabin components, including special wall, floor, mirror and glass finishes, as well as bumpers, handrails and other accessories.

La Cabina meets the market demands in terms of quality, pleasant aesthetic solutions, innovation in technology, delivery time and final costs.

The target is total quality.

MEDIALIFT CAR FINISHES

In co-operation with **La Cabina** Medialift has developed its own lift cars line, proposing four main car lines: classic, elegance, luxury and superior, distinguished by an infinite possibility of variation and customization, by combining the many finishes and colours available.
